It is reported that at the meeting of the Pacific Railroad Company, held at Boston yesterday, the balance of the first mortgage bonds of the Company, and also \$8,000,000 of land-grant bonds, were taken by the stockholders. The proceeds of this sale will enable the Company to pay all their floating liabilities, build a branch road to Denver, and fully equip the main track with all the rolling stock needed, and have a balance in the treasury.

The Chicago Republican of Tuesday says:

The local money market is in about the same condition as before noted. There is, however, a perceptible increase in the number of borrowers on the part of the opinion seeming to be prevalent among the banking houses that they have on hand than they know what to do with, but such is not the case, though regular customers in nearly all instances have no difficulty in securing all the funds they desire, or in need. The money market is a little more active than it was a few weeks ago, and still not so bad as it was. Some few outside parties with favorable when they render satisfactory collateral, still will not be inclined to loan money on speculation, much preferring to keep it in their vaults, so as not to meet the requirements of the bankers. On all accounts the money market is regarded "comfortable," with an tendency to increased ease as the shipments of produce to the seaboard improve. Rates of interest are firm and steady at 10 per cent per annum.
